Thanking you

ONLINE CLASS SYSTEM IN SCHOOL

REPORT: ST. PETER'S SR. SEC. SCHOOL, KICHHA

Due to deadly COVID-19 PANDEMIC, imposed nationwide lockdown has impacted day to day basis classroom teaching in schools, but through initiative of MHRD, schools being provided with multiple technical platforms to continue their uninterrupted form of study has significantly substantiated the efforts which paved path for new technological revolution in field of education. But, alongside it there are certain issues that are to be pondered which raise problems in their own prospects like that of Technical glitches, Economic feasibility of Internet access, lack of concentration, unavailability of material, impact on students' health etc. needed to be addressed.

ONLINE CLASS SYSTEM IN SCHOOL

REPORT: ST. PETER'S SR. SEC. SCHOOL, KICHHA

NETWORK ISSUE

Network feasibility and its availability is the primary concern that is needed to be addressed as the first point of adherence. As on one hand, by the side of school it is tried time and again to follow up uninterrupted study, but still due to technical glitches there is sometimes school gets impacted. **As a recommendation, with an alternative some informative database could be the step to avoid the issue.**

ECONOMIC ISSUE

In midst of this chaotic situation, School's endeavor to provide free flow of education through online portals is commendable like that of ZOOM, WHATSApp, YOUTUBE. But it generates one issue emerging out in form of fixed economic accessibility of Internet, which somewhere keep a group of people out of accessing the most required due to fixed amount of data allotted to them through their network systems. Somewhere, it also needs to be addressed. **As a recommendation, some offline sources also needed to be provided for bridging the gap.**

HEALTH ISSUE

It is to address health issue which emerged out of this endeavour, which focused on saving lives of people through stringent policy of lockdown. Some psychological problems student face while being mostly during excessive use of technology, along with it, their concentration power is also on the toll. Not only that but also, due to high usage of Internet for study purpose has impacted their eye sight, adding to the problem caused of their increased on-screen time. **In the conversation session with parents, this thing emerged that there is need to apply some interactive sessions as well, on the side of**

RESPONSE FROM PARENTS OF THIS ENDEAVOR

In the conclusive survey being done by the faculty members of St. Peter's Institution, bigger picture that emerged out of it is that apart from highlighted issues to be addressed, in totality all the concerned parents of their respective wards are very much thankful towards the Staff and administration for its visionary formula being implemented.

study patterns to balance out the pressure which students face via online study pattern as a recommendation.
